ACTION

Of the New Court House Junta is Discussed by An Observer.

At a pow-wow held at the court house last Saturday, it was resolved that the people of Harrison county, "need and must have a new court house. There were present at the convocation, the county court, whose members were quiescent nine of the ten citizens selected by the meeting held on the 18th inst. The junta was composed of four bankers, Squire Berry and four clodhoppers. The oily tongue of one of the bankers and the brusque oratory of Squire Berry soon pulverized the clouds and the vote when taken is said to have been unanimous.

A suggestion to erect some additional buildings was nollied instantly. For such a rich county \$300,000 additional tax would take but a drop out of the bucket of our immense wealth, besides lots of it would have to be paid by the corporations.

A proposition to bond the county for the necessary amount, Squire Berry said, could not be carried now if the people would vote against the bond issue with all the delinquents voting for the bonds, (which they always do).

Do the people of the county want to spend \$300,000 to beautify the town? If the court does decide to invest \$300,000, it would mean \$15,000 for an architect and about \$6,000 for a boss of the job.

There is but one shortage in space in the present court house and that is the county clerk's office. The court room is ample for all court business. The sheriff has plenty of room as well as the circuit court clerk. By build-

ing a county clerk's office it would vacate four rooms for other purposes and the offices occupied by Squire Carter and Squire W. Perry Camp are amply sufficient for county surveyor and assessor. —OBSERVER.

WHAT

(Continued from page one.)

hard article, press it upon the artery just above the wound toward the heart and bind it closely there with a handkerchief or any temporary bandage. In the case of burns the first object is to keep the air away from the burned parts. This can be done by smearing oil upon the burn. Practically any kind of oil except kerosene is good for this use. An application of lime water is perhaps the best thing in the case of a burn caused by electricity. Never place cotton upon a burn.

Turpentine Useful.

Dr. Shields said that most wounds are of three kinds, a cut, a crush and a puncture. The first thing to do with a cut is to bind the wound in order to check the flow of blood and call a physician. A crush should likewise be bound in order to prevent subsequent bleeding. In the case of a puncture one should pour turpentine upon the wound, bind it and call a physician.

Many other methods of life saving work and first aid to the injured, of which the foregoing are the chief ones, were explained and demonstrated in a very interesting way by Dr. Shields. All those who heard him learned many facts that will undoubtedly prove to be of great service, especially in the case of telephone and telegraph employees for whose benefit the lecture was given.

MASS MEETING IS TO BE HELD HERE

Call is Issued to Farmers and Others to Assemble Saturday.

TO MAKE A PROTEST

Against Erection of a New Court House and to Resist Increased Taxation.

There is to be a mass meeting of farmers and others at the court house here Saturday to protest against the erection of a new court house here. A signed call for the mass meeting is as follows:

A call meeting of the farmers of Harrison county:

The county court is about to act on the question of building a new court house at an estimated cost of some \$300,000. The people generally are not advised of this threatened increase in their taxes, and there is but little time in which to act. The great burden of this unnecessary tax will fall upon the farmers. We, therefore, call upon the farmers of Harrison county to assemble at the court house in Clarksburg on Saturday, February 1, at 10 a. m. to protest against the building of a new court house, and to resist this proposed increase in taxation. Reporters for the papers and ministers of the gospel are cordially invited to be with us.
